Medical Insurance ECUA’s medical insurer is Florida Municipal Insurance Trust (FMIT). FMIT contracts with United Healthcare to administer claims and provide a range of member services. Employees have a choice of two health plans. One plan has a more traditional design and the other is a high deductible health plan (HDHP) which allows for health savings account (HSA) participation. For both plans, ECUA pays a percentage of the premium for employee and dependent coverage. The core features of each plan and the rates for the employee-paid portion of the premium are presented on page 2. Medical insurance coverage is effective the first of the month following completion of 30 days of employment.

Health Savings Accounts (HSA) A health savings account is an “interest-earning account” employees can use to pay for eligible health care and related expenses. ECUA and employees can contribute to a HSA. Employee contributions are made pre-tax, earnings through investments are tax-free, and withdrawals for qualified expenses are tax-free. To participate in a HSA, an employee must elect the high deductible health plan (HDHP). When that happens, ECUA will contribute up to \$950/Individual and \$1,375/Family into the employee’s health savings account for the calendar year. ECUA contributions made during the calendar year are prorated according to hire date. HSA annual contribution limits are determined by the Internal Revenue Service. For 2021, the limits are \$3,600 for individual coverage and \$7,200 for family coverage. In addition, if age 55 or over, the IRS allows a catch-up contribution of up to \$1,000. Another great feature of HSAs is account balances roll over each year. Specific eligibility requirements apply for HSA participation.

Dental Insurance Aetna is our dental insurer. A Low Option plan is offered with a \$1,000 annual maximum. ECUA also offers a High Option plan with a \$1,500 annual maximum. Both plans include the Preventive Incentive Program whereby the costs of Class I services (preventive and diagnostic) are not deducted from the annual maximum. In addition, employees may elect coverage for dependents. Dental insurance coverage is effective the first of the month following completion of 30 days of employment.

- **Convenient payroll deductions.** Contributions come only from paychecks throughout the year.
- **Flexibility.** Personally decide how much to save (up to the annual IRS contribution limits) and how to invest with the six Investment Providers and their broad array of investments. Change contributions or investment selection any time.

When leaving State employment, take your 457 Plan account with you - in cash, or as a rollover to an Individual Retirement Account (IRA) or another employer's qualified retirement plan that accepts rollover contributions.
