### **History of the Emerald Coast Utilities Authority**

The ECUA was originally created under the name Escambia County Utilities Authority in 1981 by an Act of the Florida Legislature to own, manage, finance, promote, improve and expand the water and wastewater systems of Escambia County and the City of Pensacola. The ECUA began offering sanitation services in Escambia County in 1992.

ECUA is a local government body, existing under the laws of the State of Florida. The powers of the ECUA are exercised by a five-member Board. Each member of the Board is elected within one of the five County districts and serves a staggered term. The ECUA's name officially changed to the Emerald Coast Utilities Authority on June 29, 2004.

### **Winter Quarter Averaging for Sewer**

Your annual sewer charges are based on the average number of gallons of water you use during the winter months. After the discovery of a houseline water leak, please contact Customer Service for a possible adjustment to the excess water and sewer charges. ECUA offers a One Time Leak Adjustment that may alleviate some of the charges. The adjustment is offered once for the lifetime of the account.
