

## Unexplained Water Loss Adjustment

I \_\_\_\_\_ am requesting to use my Unexplained Water Loss Adjustment at this time. I had abnormally high water usage at my address of \_\_\_\_\_, account number \_\_\_\_\_ that caused a considerable increase in my water usage. I have requested a meter test and understand that if the meter test result is showing the meter tested at 95-100% accurate, there will be a charge added to my account for this test. I understand by taking this adjustment at this time, I will be unable to receive another Unexplained Water Loss Adjustment in my lifetime as an ECUA customer. I also understand that I am still required to pay my bill as scheduled and that my account will be monitored for a reduced water usage. I understand that once ECUA has received this form and evidence of reduced water usage, my adjustment will be processed.
